or at [this link](#)

## Aim

The HIE CP Workshops are part of ECRA's aim to deliver better science for society. The workshop aims to engage stakeholders for developing research priorities and discusses state-of-the-art developments in the science of extreme events.

## Outline Programme

- 1) Physics of extreme events
- 2) Statistics of extreme events
- 3) From models to impacts
- 4) Impact studies of past events
- 5) Future changes of extreme events
