Pilot Workshop Arctic Climate Stability and Change in collaboration with the European Polar Board

14./15. May 2012, Brussels, Belgium

The following research topics may be addressed:

- Observation and analysis of sea ice reduction and assessment of its consequences for climate variability
- Impact of climate variability on Greenland (and Antarctic?) ice sheet dynamic
- Permafrost thawing and release of greenhouse gases
- Albedo change and climate feedbacks
- Arctic climate variability modes

The first general tasks within the topics are:

- Review the ongoing activities of the partners in these topics
- Discuss requirements for observations and infrastructure
- Discuss modeling requirements for predictions on different time scales
- Identify critical knowledge gaps.

If you are interested to participate in this workshop please contact [Nicole Biebow](#), AWI.

The workshop will develop these topics, identify the requirements and priorities of research within Europe and highlight areas of critical developments for society. Relevant information on these issues will be provided to stakeholders. The participants will try to obtain additional funding through joint European projects.

For further information on the Workshop, please click [here](#). You need to be logged in to access the page.

Upcoming ECRA Events

**11th ECRA-
Executive Committee Meeting**
(on invitation only)
9 March 2016, Brussels

Arctic ECRA Workshop
25-26 February 2016
Brussels, Belgium

Putting the Mountains
on the Agenda
of HORIZON 2020

(organized by CH-AT Initiative,
and supported by ECRA)
25 April 2016
Brussels, Belgium

Joint Workshop of CP HIE
and CP Hydrological Cycle
16 May 2016
Stockholm, Sweden

ECRA side event at:
ICRC-CORDEX 2016
17-20 May 2016
Stockholm, Sweden
