Pilot Workshop High Impact Events and Climate Change

The Cambridge workshop was held 14 - 15 June 2012 at "The Cambridge Belfry" in Cambourne, near Cambridge.

It was sponsored by the European Climate Research Alliance (ECRA) and the National Centre for Atmospheric Science (NCAS), and organised by [Dr Peter Braesicke](#).

The programme covered a large variety of topics, including high resolution climate modelling, case studies, regional impacts, definition of extreme events and data challenges.

The original programme for the event can be found [here](#).

The main outcome of the meeting was a [position paper](#) describing the scientific aims.

Since the workshop, activities, links and relations have been developed:

- Facilitated by Dr Rasmus Benestad (Met-NO) a link was established to [Working Group 1 of the VALUE COST Action](#).
- Dr Len Shaffrey has continued working on North Atlantic extratropical cyclones and is developing links to the [Universitat de les Illes Balears](#). More information can be found [here](#).

More information on the Workshop can be accessed [here](#). A login is required.
