

SAVE THE DATE:
ECRA Joint Collaborative Programs Workshop on

CHANGES IN THE HYDROLOGICAL CYCLE & HIGH IMPACT EVENTS AND CLIMATE CHANGE

9 March 2017
9-17h
Helmholtz Office
Rue du Trône 98
Brussels, Belgium

Organization:

Elisa Palazzi, e.palazzi@isac.cnr.it
Ralf Ludwig, r.ludwig@lmu.de
Peter Braesicke, peter.braesicke@kit.edu
Martin Drews, mard@dtu.dk
Tina Swierczynski,
tina.swierczynski@ecra-climate.eu

Details: www.ecra-climate.eu

Aim:

The workshop brings together researchers from two ECRA Collaborative Programs and the scientific community interested in

- 1) Share and discuss recent achievements in science related to hydro-meteorological modelling, extreme events and hydrology
- 2) Developing a proposal for a dedicated COST Action on the dynamics and impacts of hydrometeorological extreme events under future climate change.

NOTE: The workshop is scheduled back-to-back with the

ECRA General Assembly

7/8 March 2017
Square Brussels Meeting Centre
Coudenberg 3
1000 Brussels
